“ Too many wonderful memories to choose just one...the common thread in all the memories was her tender-hearted love she had for me and my family. Aunt Rie was always willing to share in our lives whether it was the countless photos and videos of my sweet granddaughter, Mary Sloane or to FaceTime with her. She loved her like her own❤️ And always wanted to see more pictures! Aunt Rie loved sports and would watch Alabama Baseball when Trey played and text me exactly what was happening she would even skip a Braves game if Bama was on TV. She loved football too and asked me every Friday if Russ' team won once he graduated and became a varsity coach!! She loved us like her own...I will so miss sharing these things with her!!! My sister, Mae and I, talked an hour yesterday about how Aunt Rie had unconditional love for EVERYONE❤️ She loved you all so much and you gave her all that love right back. Watching you all take such good care of her really is a testament of what love of family really is all about. It finally hit me in church today that Aunt Rie is not going to text me back or call to talk anymore and my tears flowed...yet I know Papa and Granny and her brothers are loving their reunion with their sweet darling, Marie❤️ Praying for you to find peace and comfort in knowing her love for you never ends!
