“ Mrs Loretta, you will be missed. This world needed a strong, caring lady like you. I was amazed by you and your lifetime of adventures my prayers go to the lived ones left behind ❤️

“ I hesitated to comment as the Rets I knew was opinionated, assertive and highly intelligent. She was way ahead of the times. With limited formal education she advanced in her chosen field of dentistry while working with the same orthodontist for over 30 years. She was one of the few people who could work and assemble computers, TV's, cameras and most anything electronic without reading the directions. At middle age she obtained her piolets license and flew small planes. Unfortunately she felt responsible for her siblings and then her nieces and nephews, some of which took advantage of that. She encouraged education and if she was your friend SHE WAS YOUR FRIEND. The last few years of her life were hell, the spark was gone. Vascular dementia is a terrible disease and robs them of that spark. Every once in awhile she would still have that "dry humors remark with the quick wit and continued to love to dance. Rest in Peace my friend, your job is done. I miss you.

“ You were my older sister by 12 years but more like a mother. You taught me to drive, you taught me life lessons, you always had my back, always there for me. You flew halfway across the country to get me because you read between the lines of my letter and thought I was unhappy. The last couple of years I didn't see you much and I'll always regret that. I miss our days of talks and giggles and ice cream. I love you dear sister and I'll see you again.
